

Dear Friends,

We are hearing more and more often about the need to control globalisation.

On the other hand we very seldom hear institutional proposals put forward to allow the democratic achievement of this objective.

The Federalist Debate intends to become the promoter and an active part of this political debate, not only on the federalists' side but also with non-governmental organisations, from which it intends to obtain and to which it intends to offer opportunities of reflection.

To be able to implement this project, the Federalist Debate needs to be supported by its subscribers, the main financing source of the magazine.

Therefore, if you have not done it yet, we would be grateful if you could fill in the subscription form that you will find attached to this promotional issue, and if you could give us the name and address of people who may be interested in our magazine.

We thank you in advance,

The Federalist Debate
